# Get started with Devin

Computer Use Agents Hackathon | Account setup, $200 promotional credit, and first-use checklist

Before you begin
Complete your Luma check-in and use the same email address you registered with for the hackathon.

## 01 Activate your account

**01** Check in on Luma
Confirm your hackathon attendance has been checked in.

**02** Open the event redemption page
Visit trydevin.ai/computer-use-agents-hackathon.

**03** Retrieve your unique code
Log in using the email address used for your hackathon registration.

**04** Copy the $200 promotional code
Keep the unique code available for the checkout step.

**05** Create your Devin account
Go to app.devin.ai and create an account.

**06** Choose a subscription
Select the Teams or Max plan as instructed by the event organizers.

**07** Apply the code in Stripe
On the Stripe checkout page, enter the code in the Promotional Code field on the left. Confirm the discount appears before paying.

**08** Finish setup
Complete the subscription flow and confirm you can access your Devin workspace.

## 02 Verify activation

Confirm the account email, promotional-code acceptance, final amount shown at checkout, and workspace access. Do not complete payment if the discount is missing or the amount is unexpected.

## 03 First-use workflow

Start with a small, non-sensitive task. State the goal and relevant context clearly, review Devin’s proposed actions and outputs, then iterate. Avoid sharing credentials, tokens, or confidential information without appropriate authorization.

## 04 Troubleshooting

Cannot find your code: Recheck your Luma check-in and registered email.

Code is rejected: Verify the code and that it is entered in Stripe’s Promotional Code field.

Cannot access Devin: Review sign-in and subscription steps; contact the event organizers or Devin support if needed.
