GET STARTED

Start building with Agents API

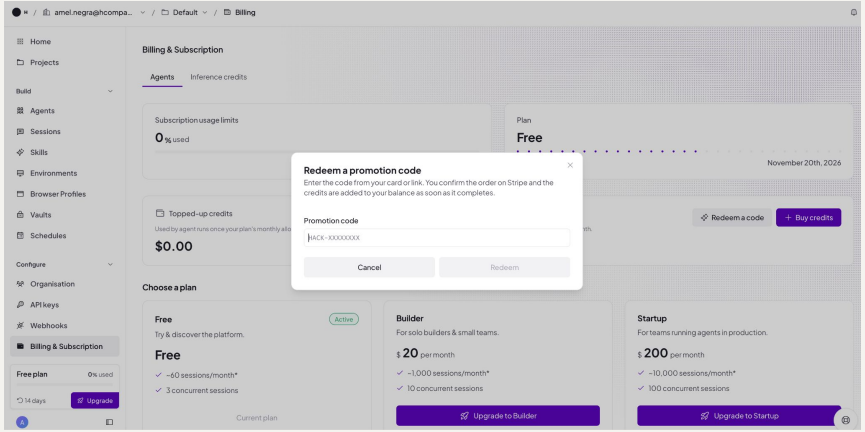

Everything you need to run your first CU agent lives in one doc: setup, API keys, and code examples.

1 **Redeem your code for credits**

2 **Read the docs or give them to coding agents**
`hub.hcompany.ai/agents-api/overview`

3 **Get your API key**
`platform.hcompany.ai`

4 **Start creating your Computer-use Agent**
`platform.hcompany.ai · or via the Agents API`

SCAN → platform.hcompany.ai
